[Documentation] FINAL ASG - Connect Friend

==========

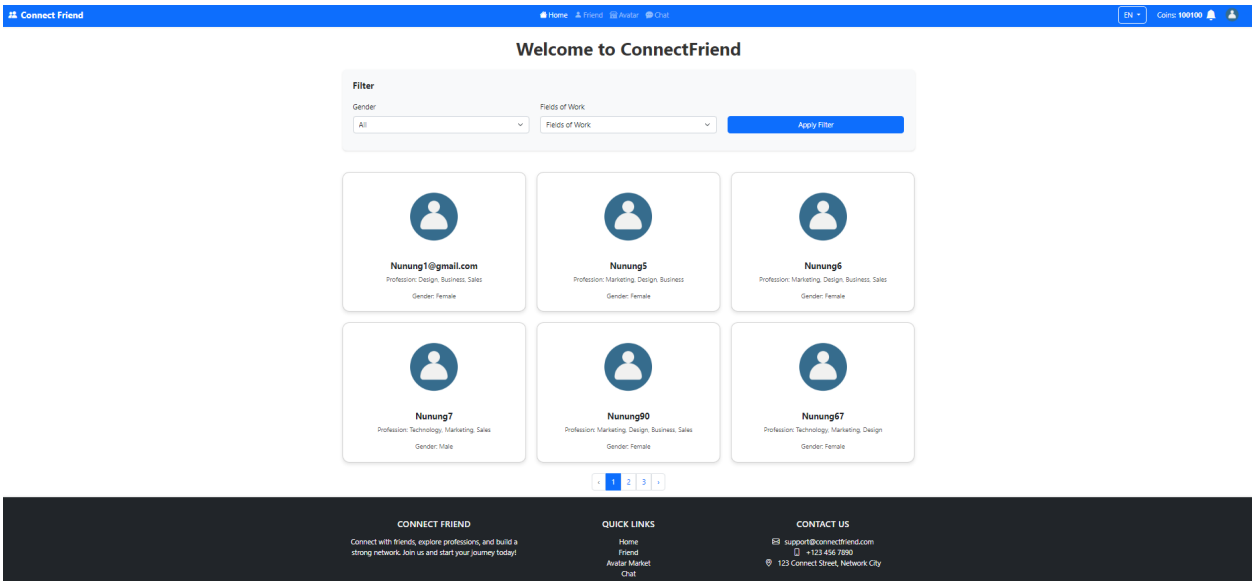
Nama : Fulgencia Shaynalie Rue

NIM : 2602187885

==========

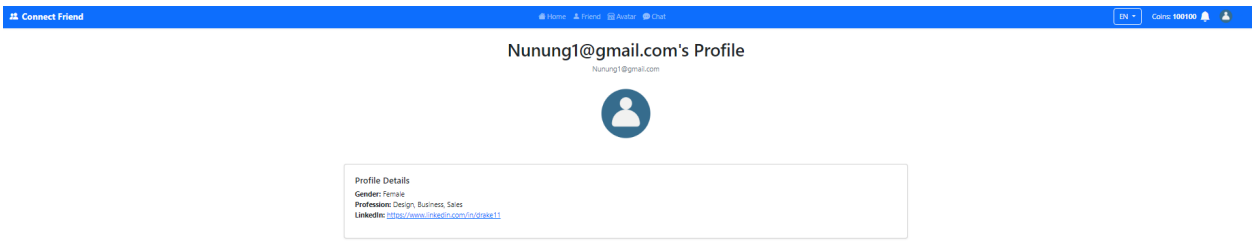
Application flow:

a. The application will display a home page containing photos from other users who have registered,

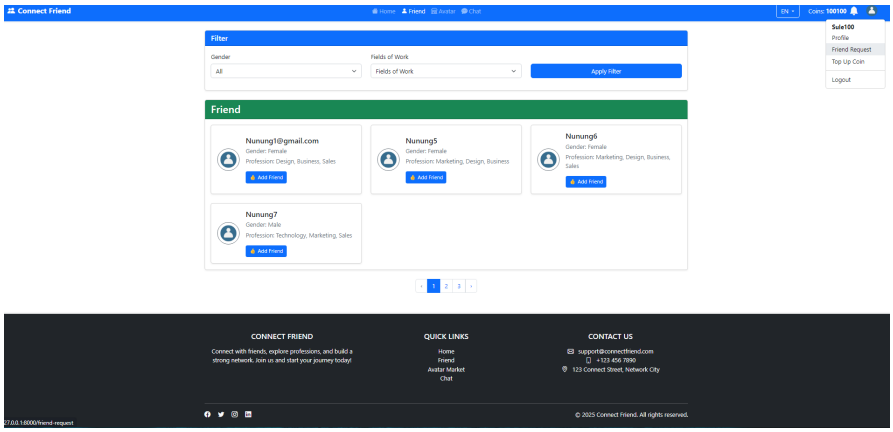


b. If the user selects one of the users in the image, direct the user to login if not already logged in. If the user has not registered, then create a register button that can be seen clearly on the login page.

[User that already logged in, can see selected user profile], if not, will be directed to login / register page



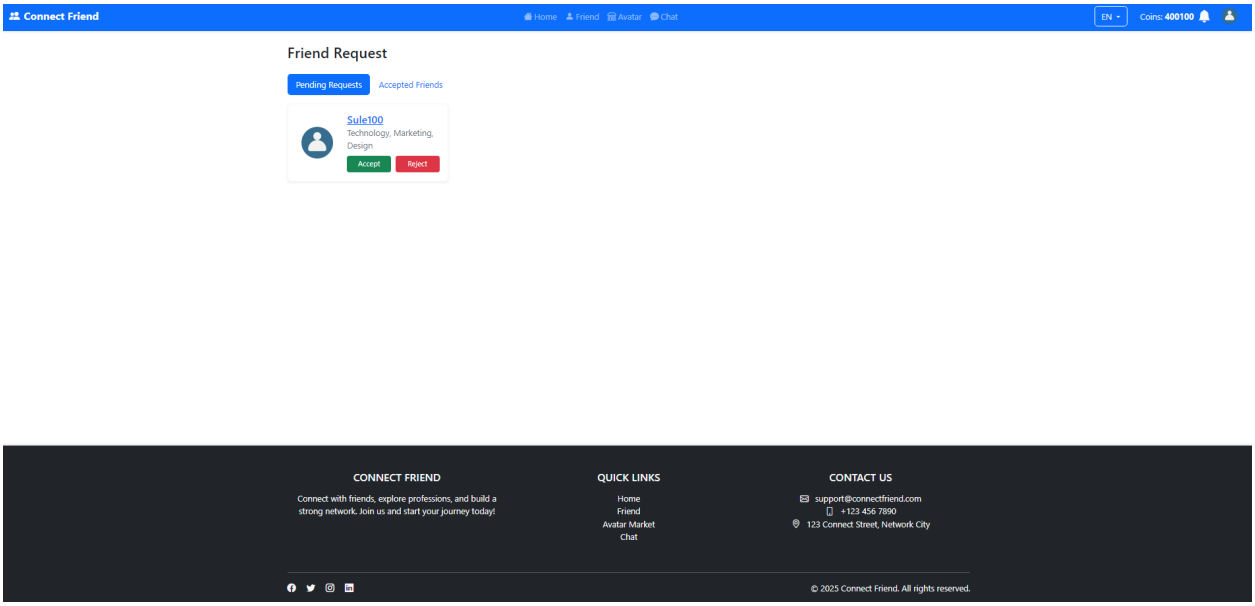
c. Users can press the Thumb button to enter the desired user into the Wishlist.



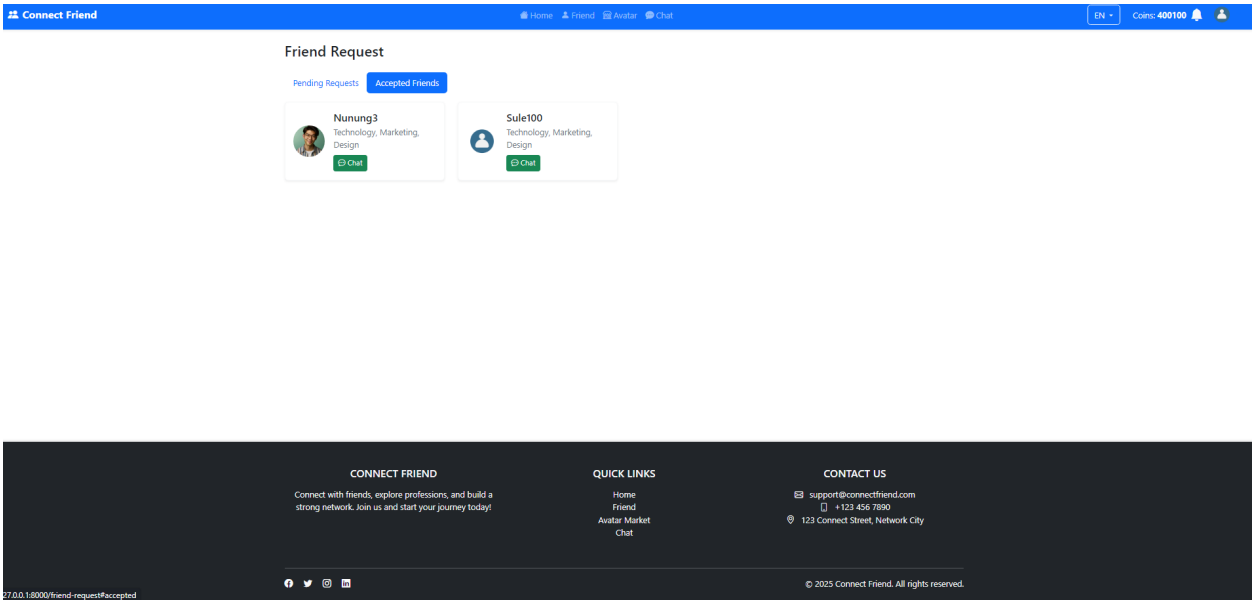
d. If other users respond by pressing the Thumb button too then users can communicate with each
other through the application (chat).

[For this example, User (Sule100) Add Friend (Nunung 90)

[On Nunung90's Friend Request Page]

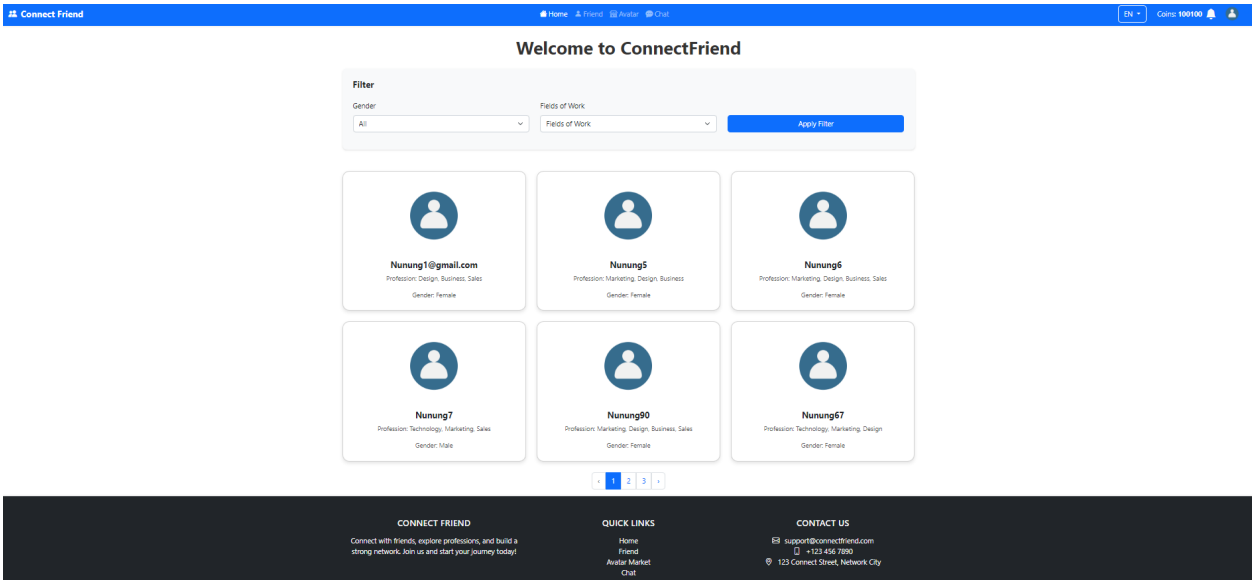


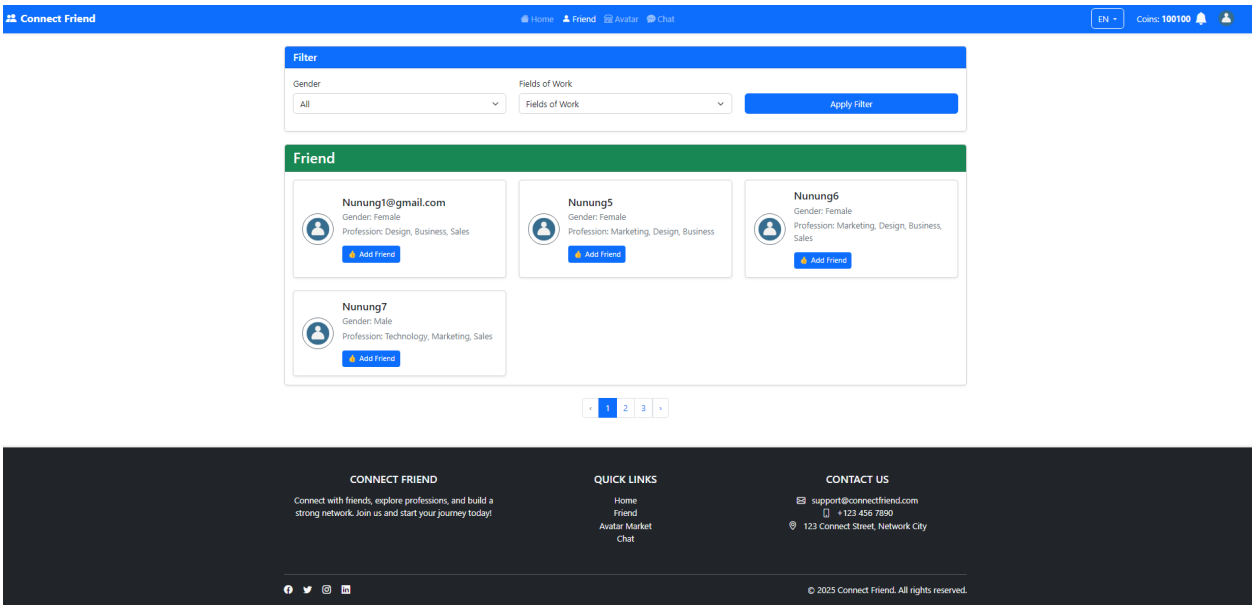
[After Friend Request Accepted]



e. Users can filter users by gender. Create a container (page/section) for the gender filter.
f. Users can search by field of work. Create a container (page/section) to filter fields of work.

[E & F, Users can filter users by gender and field of work on Home Page and Friend Page]





Main Features:

[LO1,LO2,LO3 & LO4, 20 points] User Authentication

- Implement the user authentication feature with login and registration

- Perform validation according to the above conditions
